Schneider Water Services' extensive experience with pumps and water systems will provide you with a complete project customized to your specific system needs. Since 1945 we have been installing and servicing water systems for the municipal, industrial, irrigation & domestic markets. All aspects from minor repairs to turn-key water systems.

Kriss Schneider manages this division. With more than twenty years of industry experience, he coordinates our licensed electricians, pump installers and specialty plumbers to professionally and efficiently complete any water project.
